

IQBID Tokenomics

Within the [IQBID ecosystem](#), the native utility token IQBID is used.

The liquidity of the IQBID token is generated from the income received from the projects, services, and platforms we offer.

Listing on DEX

IQBID tokens are available for exchange for other crypto assets via decentralized exchanges.

Regular replenishment of the liquidity pool

Income from the monetization of our own projects is used to replenish liquidity, so IQBID tokens [can be exchanged](#) for other crypto assets.

Free circulation

IQBID tokens are freely used within our community's ecosystem and are used for mutual exchange between project participants and users.
