

Cookie policy

Effective Date: September 8, 2026

IQBID Helios Limited (registration number **252002**, registered at **Suite 9, Ansuya Estate, Royal Street, Victoria, Mahe, Seychelles**) issues this Cookie Policy for users outside the US and EU/EEA (RoW region).

1. What are cookies and tracking technologies?

Cookies are small data text files stored on your device that recognize your hardware, secure active sessions, and analyze server telemetry.

2. Categories of cookies we deploy

(a) **Strictly Necessary and Session Cookies and Token Demarcation:** Vital for platform navigation, encrypted login, verifying active workspace access, and monitoring Subscription Plan parameters. This category strictly includes cookies required to accurately display usage-based computational credits (the "IQBID Tokens") on your profile interface. In alignment with our global frameworks, IQBID Tokens represent exclusively internal, proprietary, non-crypto technical software metrics used solely to measure AI data throughput and API execution costs. They possess absolutely zero cash value, do not constitute virtual currencies, stablecoins, digital securities, or asset-backed digital utilities, and remain completely non-transferable and non-redeemable for fiat currency or any other real-world financial assets. Disabling these cookies breaks core platform authentication frameworks.

(b) **Performance, Telemetry, and Analytics Cookies:** Collect aggregated technical data on response latencies and traffic to optimize backend routing.

3. Data sharing protocol and interaction with AI models

Cookies do not capture raw text prompts or User Content; backend API payloads handle data per the Global Privacy Policy. Third-party cookies from sub-processors (like OpenAI or Google) only monitor network stability.

4. The mandatory consent framework (how to control cookies)

Users retain control over cookie preferences via browser settings, though disabling them may limit platform functionality.

5. Policy amendments and version tracking

The policy is effective as of the stated date. The company reserves the right to amend the terms, with updates indicated by a revised effective date.

6. Contact and corporate details

For inquiries, contact privacy@iqbid.ai.
